Columbus, OH

Janice Fletcher, MD, FRACP, FRCPA  
Women and Children's Hospital  
North Adelaide, Australia

James Gibson, MD, PhD  
Specially for Children  
Austin, TX

I am the parent of two children with **MCAD Deficiency, a Fatty Oxidation Disorder**. My daughter, Kristen, died in 1985 when she was 21-months-old because it went undetected and was **misdiagnosed as Reye's Syndrome**. It wasn't until one year later when my son, Kevin, was born and diagnosed with MCAD that we learned she died from the same disorder. Our third child, Brian, is a carrier and not directly affected. To say the least, **my family has been changed forever by this disorder**.

In order to cope with all of our life experiences, my husband, Dan, and I formed a **National MCAD Family Support Group** in 1991 to 'connect' with other MCAD Families. Then in 1996, **we expanded our Group throughout the world to include all Fatty Oxidation Disorders (FODs)**. Through our newsletters, website, Email List, and National Conferences every two years we provide emotional support, practical information about living with these disorders, and inform Families of new developments in screening, diagnosis, treatment, and research, as well as encourage them to network with other Families that are listed on our Family List.

**We are asking for your help ~ as FOD Families or as Professionals interested in FODs ~** to spread the word about these disorders and our Support Group. Additionally, if you would like to contribute to our mission or newsletter/website about your own Family Story or about the research/clinical work you are pursuing on a particular disorder, we would like to hear from you. Your financial help (tax deductible) would also help us continue our Mission to support Families around the world free of charge ~ we have a Donation link on our homepage for the General Daily Fund, the Clinical Trust Fund, and the Research Trust Fund or you are welcome to mail a check.

**Again, we would greatly appreciate your help in educating others about the diagnosis and treatment of these disorders, expanded Newborn Screening for FODs and several other metabolic disorders, and our FOD Family Support Group ~ it just may save a life!**

Take care...

Deb Lee Gould, MEd, Director

...

**Fatty Oxidation Disorders:** Medium Chain Acyl CoA Dehydrogenase Deficiency (MCAD); L-3-Hydroxy Acyl CoA Dehydrogenase Deficiency (LCHAD); Carnitine Palmitoyl Transferase I and II (CPT I & II); Very Long Chain Acyl CoA Dehydrogenase Deficiency (VLCAD); Short Chain Acyl CoA Dehydrogenase Deficiency (SCAD); 3-Hydroxy Acyl CoA Dehydrogenase Deficiency (HADH, formerly called SCHAD); Electron Transfer Flavoprotein Dehydrogenase Deficiency (ETF – GA2/MADD); Trifunctional Protein Deficiency (TFP); Carnitine Transport Defect (Primary Carnitine Deficiency); Carnitine-Acylcarnitine Translocase Deficiency; 2, 4 Dienoyl-CoA Reductase Deficiency; 3-Hydroxy-3 Methyl Glutaric Deficiency (HMG); **Unclassified FODs**

The FOD Family Support Group is an all Volunteer Family-based Support Group and a 501c3 Non-Profit Corporation.  
**All donations are tax-deductible ~ Federal Tax ID # 83-0471342.**

Thank you to **all** that have donated over the years so that we may continue to provide our support and information to Families and interested professionals around the world. Your donations help to cover copying and postage costs, phone calls to new FOD Families (US and abroad), website fees, Conference costs, as well as raising funds for future clinical and research activities by our FOD professionals.

**Please make all checks out to: FOD Family Support Group and Mail to: 2041 Tomahawk, Okemos, MI 48864**

**THANK YOU from ALL of us!**
