Columbus, OH

Janice Fletcher, MD, FRACP, FRCPA
Women and Children's Hospital
North Adelaide, Australia

James Gibson, MD, PhD
Specially for Children
Austin, TX

I am the parent of two children with **MCAD Deficiency, a Fatty Oxidation Disorder**. My daughter, Kristen, died in 1985 when she was 21-months-old because it went undetected and was **misdiagnosed as Reye's Syndrome**. It wasn't until one year later when my son, Kevin, was born and diagnosed with MCAD that we learned she died from the same disorder. Our third child, Brian, is a carrier and not directly affected. To say the least, **my family has been changed forever by this disorder**.

In order to cope with all of our life experiences, my husband, Dan, and I formed a **National MCAD Family Support Group** in 1991 to 'connect' with other MCAD Families. Then in 1996, **we expanded our Group throughout the world to include all Fatty Oxidation Disorders (FODs)**. Through our newsletters, website, and Networking/Conferences/MeetUps we provide emotional/grief support, practical information about living with these disorders, and inform Families of new developments in screening, diagnosis, treatment, and research, as well as encourage them to network with other Families via our facebook Group, google Email List and worldwide zoom Chats.

We are asking for your help ~ as FOD Families or as Professionals interested in FODs ~ to spread the word about these disorders and our Support Group. Additionally, if you would like to contribute to our Mission or newsletter/website about your own Family Story or about the research/clinical work you are pursuing on a particular disorder, we would like to hear from you. Your financial help (tax deductible) would also help us continue our Mission to support Families around the world free of charge ~ we have a Donation link on our site for the General Fund, the General Trust Fund, and also links for Research/Educational efforts by some of our FOD Professionals.

Again, we would greatly appreciate your help in educating others about the diagnosis and treatment of these disorders, expanded Newborn Screening for FODs and several other metabolic disorders, and our FOD Family Support Group ~ it just may save a life!

Take care...

Deb Lee Gould, MEd, Director

Fatty Oxidation Disorders: Medium Chain Acyl CoA Dehydrogenase Deficiency (MCAD); L-3-Hydroxy Acyl CoA Dehydrogenase Deficiency (LCHAD); Carnitine Palmitoyl Transferase I and II (CPT I & II); Very Long Chain Acyl CoA Dehydrogenase Deficiency (VLCAD); Short Chain Acyl CoA Dehydrogenase Deficiency (SCAD); 3-Hydroxy Acyl CoA Dehydrogenase Deficiency (HADH, formerly called SCHAD); Electron Transfer Flavoprotein Dehydrogenase Deficiency (ETF - GA2/MADD); Trifunctional Protein Deficiency (TFP); Carnitine Transport Defect (Primary Carnitine Deficiency); Carnitine-Acylcarnitine Translocase Deficiency; 2, 4 Dienoyl-CoA Reductase Deficiency; 3-Hydroxy-3 Methyl Glutaric Deficiency (HMG); Unclassified FODs

The FOD Family Support Group is an all Volunteer Family-based Group and a tax-exempt 501c3 Non-Profit Corporation

US Donations are tax-deductible

Thank you to all that have donated over the years so that we may continue to provide our support and information to Families and interested professionals around the world. Donations help with copying and postage costs, phone calls to new FOD Families (US and abroad), Insurances, website fees, Regional MeetUp/Seminar costs, as well as to provide pro bono Grief Support for FOD families and others (local/online) living with loss.

Please make US checks out to: FOD Family Support Group and Mail to: PO Box 54, Okemos, MI 48805-0054

THANK YOU from ALL of us!
